M&CA Completes Radiation Oncology Project

Chicago, IL - Phase I of the 6,350 GSF addition and renovation of the Cancer Center at Advocate Condell Medical Center in Libertyville, Illinois has been completed and occupied. Included in the first phase is the new Linear Accelerator, staff support facilities and all new HVAC, power and utility infrastructure. The Linear Accelerator is the newest and most advanced of its type with variable energy and the Brainlab gating system which provides more accurate targeting of the beam. The exterior finishes selected for the new facility update but respect the existing architecture, while the interior finishes create an entirely new image for the most advanced system for cancer care and treatment in Lake County. Subsequent phases will provide new diagnostic facilities as well as patient reception, prep, MD Offices, Exam Rooms and Support Spaces. This project continues Advocate's commitment to provide the most up to date diagnostic and treatment options for cancer. Matthei & Colin Associates provided all planning, architecture and interior design. services.

Advocate Condell Medical Center has been providing high quality care to residents in the north suburbs for more than 80 years. Ranked among U.S. News & World Report's top hospitals, Advocate Condell is the largest health care provider and only Level I trauma center in Lake County, Illinois. Advocate Condell is a non-profit, acute care hospital offering a full spectrum of medical services. This includes everything from obstetrics, radiology services and rehabilitation to open heart surgery, neurosurgery and oncology. Recognized for its quick treatment of heart attack patients, Advocate Condell holds full accreditation from the Society of Chest Pain Centers. In addition, Advocate Condell is accredited by DNV Healthcare as a Primary Stroke Center. The hospital also features the only dedicated pediatric emergency department in Lake County.

Since 1974, Matthei & Colin Associates, LLC (M&CA) has specialized in the planning and design of health care environments. Through the passion of our creative effort, we have emerged today as one of the nation's few firms exclusively committed to health care architecture. Our singular focus on designing and creating health care environments and our productive client partnerships result in highly individualized planning recommendations to address the requirements of each project.
