“Avoiding the Perfect Storm” Hospital Building Projects Come with Inevitable Conditions

Chicago, IL—“Hospital building project delays come with inevitable conditions,” stated William W. Heun, AIA, and partner of Matthei & Colin Associates (M&CA) in the *Healthcare Building Ideas* (March 2012) article [“Avoiding the Perfect Storm.”](#)

There are an untold number of large projects that have been cancelled or delayed due to the economic uncertainties of our times; however, this is nothing new. Large projects, especially politically sensitive ones, have been delayed and resurrected ever since man started building. How do you manage the delay to make resurrection possible and do it efficiently? What is special and different about a large healthcare project that is delayed and brought back to life again? For more details and the [full article](#)>

Since 1974, [Matthei & Colin Associates](#) (M&CA) has specialized in planning and design of healthcare environments. M&CA is one of ten firms nationally who focus their entire resources to healthcare, and brings an unparalleled depth of experience to every project. Their mission is to deliver imaginative solutions that address both facilities and operational criteria, maximizing staffing, and functional efficiency.
